XR DRIFT

REAL KARTS. UNREAL TRACKS.

MIXED REALITY DRIFT KARTING FOR ENTERTAINMENT VENUES

WHAT IS XR DRIFT?

Players drive real electric drift karts while wearing Meta Quest 3 headsets. The floor is real, the world around it is virtual. The rest of the group plays against them from the game room with controllers, live in the same world. Halfway through, everybody swaps. One arena, every game, any floor shape.

8 KARTS ON THE FLOOR	**16** PLAYERS PER SESSION
~60 MIN PER SESSION	**13+** TO DRIVE WITH A HEADSET

Any floor shape, pillars and corners included. About 200 m² for 4 karts.

05 Swap roles

06 Second half & leaderboard

GAMES

Gnome Hunt · Team battle for up to 16 players: gnomes collect gold, karts hunt them.

The Racer · Time trial for smaller groups: one driver at a time, fastest lap wins.

Hangar · Sci-fi team battle (in development). New games keep coming.

SAFETY

- Roll cage, seat belt and bumper ring; top speed 25 km/h
- Operator watches live and can stop all karts at once
- Headset driving from 13, waiver at check-in
- Max 16 per session; bigger groups in split sessions

WHAT'S INCLUDED

- Electric drift karts in XR Drift livery
- Meta Quest 3 headsets
- Controllers for the couch players; screens optional
- Operator tablet with remote stop
- UV-C headset cleaning cabinet
- Installation, plus 1 day of staff training
- 1 operator runs a session; updates arrive remotely
